

THAT TIRED FEELING

Relieved by Hood's Sarsaparilla, Which
Renovates the Blood

That tired feeling that comes to you in the spring, year after year, is a sign that your blood lacks vitality, just as pimples, boils, and other eruptions are signs that it is impure; and it is also a sign that your system is in a low or run-down condition, inviting disease. It is a warning, which it is wise to heed.

Ask your druggist for Hood's Sarsaparilla. This old standard tried and true blood medicine relieves that tired feeling. It cleanses the blood, gives new life, new courage, strength and cheerfulness. It makes the rich red blood that will make you feel, look, eat and sleep better.

Be sure to get Hood's Sarsaparilla. It embodies the careful training, experience, and skill of Mr. Hood, a pharmacist for fifty years, in its quality and power to cure.—Adv.

WIFE TESTIFIES.

A Witness Against Her Husband in the
Waite Murder Case.

New York, May 25.—The sender of the mysterious "K. Adams" telegram which was figured in the case of Dr. Arthur Warren Waite, accused of the murder of his father-in-law, John E. Peck, millionaire Grand Rapids drug manufacturer, was identified as Elizabeth B. Hardwick of Somerville, N. J., at Waite's trial yesterday. This was the telegram sent from New York to Grand Rapids, urging Percy Peck to have an autopsy held on his father's body.

Mrs. Clara Louise Peck Waite faced her husband, Doctor Waite, in the court for the first time yesterday when she took the stand as witness against him. Mrs. Waite, dressed in mourning, came into the court room so quietly that few observed her as she took a seat behind the jury box as her brother, Percy Peck, was testifying.

Doctor Waite, who had been sitting with bowed head all the forenoon, looked at his wife, but she appeared not to see him.

Mrs. Waite testified concerning her father's visit from Grand Rapids to New York and said that Waite suggested that Dr. Albertus A. Moore be called to see her father.

"We—that is father, Doctor Waite and myself—had planned to go to Hot Springs on a visit. Father appeared to be in very good health."

Mrs. Waite, in continuing her testimony, said her husband went out on "calls" at all times of the day and night. The night before her father died, she said, Waite gave him an egg and Mr. Peck complained that it made him ill. Next morning her father was dead. She sobbed at one point in her testimony.

To Honor Pilgrims.

Boston, May 25.—A commission to consider the form which the state's observance of the tercentenary of the landing of the Pilgrim fathers at Plymouth shall take was named by Governor McCall yesterday. It comprises Major Henry L. Higginson of this city, Galen L. Stone of Brookline, Frank W. Stearns of Newton, Robert M. Burnett of Southboro and Arthur Lord of Plymouth. It will report to the next legislature.

MILLION A DAY FOR THE NAVY

The Bill Carrying \$360,000,-
000 Budget Is Re-
ported

ADMIRAL FISKE
WINS POINT

Measure Provides Funds for
a World Peace
Move

Washington, May 25.—A million dollars a day navy bill was reported to the House by the naval affairs committee yesterday.

While the bill carries by specific appropriation \$241,449,151.99, projects provided for obligate the treasury to an additional \$119,485,142, a total of \$360,934,293.99 for the fiscal year. The specific appropriations give \$91,787,287.11 over that of last year.

Additional obligations upon the treasury for which appropriations are made in the bill are as follows:

Projectile plants, \$705,611; Philadelphia dry docks, \$3,000,000; equipment depot and supply station at Philadelphia, \$36,500; gun shop, District of Columbia, \$400,000; dry dock, Norfolk, Va., \$3,000,000; laboratory, \$300,000; naval reserves, \$900,000; armor plate plant, \$11,000,000; increase in ships, \$100,843,000.

The expense and pay of the naval reserves are not included in the bill.

While ostensibly upholding the authority of the secretary of the navy, the committee virtually granted the contents of Admiral Bradley A. Fiske, former chief of operations, by granting to the chief of operations authority to issue orders, such orders to be considered as emanating from the secretary and to have full force and effect as such.

"The present navy," the report declares, "is as good as any," and the same thing is declared true of the navy's guns. The powder situation is called "very satisfactory" and the torpedo situation is "well in hand."

"The government has now on hand or in process of manufacture torpedoes sufficient for the full allowance and reserve for every ship the government possesses or that has been authorized," says the report.

"An increase in the number of mines to be kept on hand has been recommended due to activities of sea mining in the European war."

"The committee desires it to be understood that while it is realized there have been no majority fleet operations, the dreadnought fleet of Great Britain, by its mere existence, has kept the enemy's fleet in port behind mine and shore defenses. Nor is it denied that the dreadnought is the backbone of fighting efficiency of any proper naval defense of a country. Yet the employment of battle cruisers in the present European war has been a failure in the raids in the North

American Steamship Ventura Picks Up
Waves 9,000 Miles from Tucker-
ton, N. J.

Sydney, N. S. W., via London, May 25.—The American steamship Ventura, which has just arrived here from San Francisco, reports that she picked up a wireless message from the station at Tuckerton, N. J., when 9,000 miles distant from that point. This is said to be a world's record.

NEW YORK LEADS WORLD.

War Trade Makes Gotham the Busiest
Port—Exceeds London by \$200,000,000.

New York, May 25.—War trade has made New York within the last year the world's busiest port. The American city has exceeded by \$200,000,000 London's annual import and export business.

New York's combined 1915 exports and imports figures prepared at the department of commerce, show a total of \$2,125,000,000. Exports are put at \$1,194,000,000 and imports at \$931,000,000. London's imports were larger at \$1,233,000,000, but her exports amounted to only \$696,000,000.

Other ports in the order of their importance are: Hamburg, Antwerp, Liverpool, Marseilles and Havre.

CLEVELAND AGAIN LEADS.

Slips Past Washington in the American
League.

Washington's defeat by Chicago and Cleveland's victory over Philadelphia put Cleveland again at the top of the American league, being one-half a game ahead of the Senators. Brooklyn still holds the lead in the National league by reason of a victory over the tailenders.

BASEBALL NOTES

And still the Giants win.
Thirteen straight for the Giants.
The Giants' win and the Braves' loss ties them for third place.

Tex McDonald, the former Braves' third-sacker, has secured a berth with the Atlanta team.

Out in the middle west they are printing freely the different baseball averages in batting and fielding among the college teams. No mention has been made of the crack Tufts college team, which is the fastest bunch of college players collected in many years.

At the present writing the only team in the Eastern league that has any chance of giving New London an argument is Lynn, and Lynn is three games behind the league leaders.

Artie Hoffman, the once famous utility player, is teacher of an amateur baseball school in Chicago.

Manager Bill Donovan of the Yankees claims that he has picked up in young Walters the fastest youngster behind the bat since the discovery of Schalk a few years back by the White Sox. This lad has all the earmarks of a great catcher and is fielding his position in fine style. He has a sure whip, gives his pitcher lots of encouragement and puts lots of pep in the team in general.

To the present writing the Washington Americans, seem to be playing most baseball of any of the American league teams. While the White Sox are stronger on paper, they are not playing the consistent ball of their Senator rivals. The world's champion Red Sox are not displaying much system in many of their games. The Yankees seem to be in hard luck with losing three of their most reliable men. Maisei has a broken collar bone, Childwell will be out of the game for 10 days at least with a bad finger, Morridge is out of the game for an indefinite period with a torn ligament in his pitching arm. In the western end of the circuit, the Browns are no weaklings and at times show lots of fight but are not evenly enough balanced in the out-field or infield to cause much trouble with the better teams in the Ban Johnson circuit. While the Cleveland Indians have had a spurt of luck they have been shaded right along on the inside game by Clark Griffith's bunch of ball tossers.

To Next General Court.

Boston, May 25.—The public service commission's recent recommendations to the legislature regarding further divestment by the New York, New Haven & Hartford railroad of allied properties and for validation of certain of its securities now without legal standing in this state, was referred to the next general court by the Senate yesterday. There was no debate.

NEW TEXAS RAID ON EVE OF NOTE

Carranza's "Absolute De-
mand" on Way
Here

A SHOW OF
FORCE WITH IT

30,000 Mexican Troops Are
Massing in Rear of
Pershing

Washington, D. C., May 25.—General Carranza will make an absolute demand for the withdrawal of American troops from Mexico in a revised note now being brought to Washington by a special messenger, according to Mexico City advices.

If this is correct, the first chief chose an unfortunate time for the demand. A new raid across the Rio Grande from the Mexico side is reported from the Big Bend district yesterday and there is no indication that the Mexico government is making any progress in suppressing banditry.

It is suggested that the delivery of the Carranza note probably will synchronize with the demonstration of 30,000 troops in northern Chihuahua. The Mexican army, under General Jacinto Trevino, may be intended as a show of force to back up the Carranza demand.

Consul Rodgers informed the state department yesterday that General Carranza's note would not arrive before next week.

Military men doubt that General Carranza's army can be as well equipped as the rumors say. Still, they are equipped well enough to precipitate trouble. Army officers are interested in learning whether the Mexican troops advance north of the Chihuahua City lines, which, under the agreement between General Obregon and General Scott, was to be the boundary of the respective spheres of activity of the two armies operating against bandits.

The latest bandit raid is reported to have occurred near Lobo, more than 100 miles east of El Paso. The force numbered 250 men. Some cattle were driven off, but no casualties are reported. A small detachment of American troops, not exceeding twelve men, is at Lobo.

General Funston telegraphed to Secretary Baker yesterday that he had heard the natives of Madra were being incited to rise against the Americans.

Advices from El Paso say the Mayor of Ascension, in northwestern Chihuahua, has made a protest to his "overman" against the American troops building intrenchments there, which he characterizes as depredations against the property affected. The mayor charges also that the troops violated the stipulation against visiting towns.

STILL SEEKING ORPET JURORS.

Are Calling Prominent Men as Tales-
men.

Waukegan, Ill., May 25.—So slow is the progress made in selecting a jury for the trial of Will Orpet, the University of Wisconsin student charged with the murder of his former sweetheart, Marian Lambert, that yesterday the seventh venire of talsmen was called. Bankers, merchants and the county's most prominent citizens will take the place of the numbers of farmers and teamsters who have been questioned and found set in their opinions regarding the case.

C. F. Jones, president of the First National bank; Theodore H. Durst, president of the Security Savings bank; Clayton Butt, assistant cashier of the Waukegan National bank; ex-Mayor J. E. Biddinger, Charles Fort, manager of the Waukegan branch of the Chicago Telephone company; Charles and Frank Hoffmann and Lew Wohl, merchants, were instructed by deputy sheriffs to appear in court yesterday.

When the sixth venire had been exhausted with only four men chosen for the jury and two others in the box tentatively, Judge Donnelly sent deputy sheriffs out to call in any citizen they might meet, with the hope of finding men who could understand what the lawyers desired.

UNUSUAL PROCEDURE.

To Avoid If Possible Another Pomeroy
Case.

Boston, May 25.—Harold Craft, a 16-year-old boy under indictment for murder, was released on \$10,000 bail in the superior court yesterday at the request of District Attorney Pelletier as a step in an unusual experiment. Bond was furnished by a member of the district attorney's staff. To determine whether the boy, who beat to death an infant cousin left in his care four months ago, is insane or degenerate he will be taken to the state school for feeble-minded at

Waverly for observation. If found abnormal he will be committed to an asylum until cured. Should tests show him to be sane, he will stand trial.

The district attorney in taking what he described as an action without precedent in this state, said he wished to avoid the development of a case similar to that of Jesse Pomeroy.

O'Meara Reappointed.

Boston, May 25.—Governor McCall yesterday reappointed Stephen O'Meara police commissioner of Boston for a term of five years. The position carries a salary of \$7,500 annually.
